CAREER OBJECTIVE

BCA graduate (GPA 8.85) with hands-on AWS and Docker experience gained from independently building, containerizing, and deploying a full-stack application to a production environment. AWS Certified Cloud Practitioner (CLF-C02) and Microsoft Certified: Azure Fundamentals (AZ-900), with a working foundation in networking, and relational databases. Seeking an entry-level Cloud Associate / Junior DevOps / Cloud Support Engineer role to apply hands-on infrastructure and troubleshooting skills and grow into operations work.

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, Security Groups, Elastic IP, IAM, S3),

Microsoft Azure (Virtual Machines, Regions, Microsoft Entra ID)

DevOps & Containers: Docker, GitHub

Programming: Java (Core, OOP), SQL, C

Databases: MySQL, Oracle

Concepts: Networking fundamentals, DNS, Data Structures & Algorithms, Cloud Fundamentals, CI/CD basics

CERTIFICATIONS

- | | | |

| • Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft | View Verify |

ACADEMIC PROJECTS

URL Shortener | [GitHub](#) | [View Live Project](#)

April 2026 – Present

- Designed and built a full-stack URL shortener (Spring Boot 3, Spring Security, MySQL, React) with session-based authentication, password hashing, and role-based access control for a user/admin model.
- Containerized the entire stack (backend, frontend/Nginx, MySQL) using Docker Compose with health-check-gated start up ordering.
- Diagnosed a CPU-credit exhaustion issue on a burstable EC2 instance by analysing utilization metrics, and resolved it by right-sizing the instance hands-on infrastructure troubleshooting under real constraints.
- Secured the deployment end-to-end: restricted the Security Group to only required ports, and attached an Elastic IP for a stable public address.

Anagram Generator | [GitHub](#)

Oct 2025

- Built a Core Java application to generate valid English anagrams, applying multithreading concepts and basic network/socket connectivity.
- Implemented filtering logic to exclude trivial 2–3 letter words, improving the relevance of generated results.

RELEVANT COURSEWORK

Database Management Systems, Computer Networks, Operating Systems, Object-Oriented Programming, Data Structures & Algorithms

EDUCATION

Sangola Mahavidyalaya, Sangola

Jul 2023 – May 2026

BCA (Bachelor of Computer Applications)

GPA: 8.85 / 10

Sangola Vidyamandir Prashala and Junior College, Sangola

Jun 2022 – Mar 2023

HSC (Science)

56.67%

Sangola Vidyamandir English Medium School, Sangola

Jun 2020 – Mar 2021

SSC

90.80%

ACHIEVEMENTS

- Won 2nd Prize in Logic League, a college-level coding competition.

SOFT SKILLS

English Communication, Collaboration, Ownership, Punctuality, Flexibility, Initiative

INTERESTS

Cloud infrastructure, Linux systems administration, and large-scale system design.
